The election is over, and Taylor will be sheriff and Wilson surveyor, much to the dissatisfaction of the Republican party, but it pleases us well, and is only consolation we can give them, is to stimulate their weak nerves with free whisky so that they may be able to stand the Salt River excursion.

ROCKPORT.

Aug. 13, 1888.

Well, we have again laid the radicals out on the cooling board in the most approved shape, and I have been hanging around on the door facings smiling till you could hear me out at Echols.

The Salt river valley is resounding with groans and imprecations from the head of navigation, where ignominious defeat disembarks to repair damages and shuffle responsibilities. It is all mine to me, and I'm sitting on the fence watching them rub the soot from their begrimed faces, pick the cotton batting out of their hair, and pull themselves together generally. Evidently if Bradley and Swope were useful to their party, they have outlived their usefulness. Madison county was so close (180 majority) last year they thought they could carry it by a vigorous and thorough canvass. The result was, they worked up the handsome Democratic majority of 500. So it has been wherever they injected their magnetism, enthusiasm and demagoguism, throughout the State.

Monday was a sad, a very sad day for Republicans in Kentucky. That day not only proved that they are in an utterly hopeless minority, but shows that, if the 70,000 negro voters were subtracted, there wouldn't be enough left to groan at on our part. Sad day? Well, I should right to roar.

Broth Brown is welcome to the slightest comfort he may extract from the implied reflection upon Taylor, regarding the home precinct. Taylor can afford to forgive this little exhibition of temper under the circumstances. But the intended disparagement vanishes, leaving a hue of the cut ungenerous, when we consider that the majority was only one, and that 6 or 8 Democrats have been cut off from the precinct since the last election. I say, to display no more ill humor shows the man in him. Had it been I whose toes had been so lately turned up to the golden-haired daisies, whose brief career had ended so abruptly in a funeral dirge on Salt river, and the significant tombs, marking the resting places of martyrs of martyrs gone before; I, who had been pursuing a delusive mirage, only to fall into the slough of despair; to have merely joined the great Cardinal in his immortal "Nay," then farewell to all my greatness," would never have satisfied me—I should have wanted for blood, a home precinct would only have aggravated me.

I regret that I cannot report as better. Mr. Lewis Byars, who was shot last Monday. He is suffering of chills, which, if not malarial, must be those rigorous incident to dangerous wounds. It is hoped, however, that he will finally recover.

This whole affair is a wretched piece of business, and seems to have been a deliberate and unprovoked attempt at murder. It is believed from good evidence, by many respectable people, that a plot was made to shoot him down on sight, as Byars says he did not even know Fine, and I'm told Fine says he did not know Byars, and as three or four seemed to hunt him down. Some think it all grew out of a vote cast by Jim Maddox, of color, for Taylor, while others think it was pure race hate. If the latter, it will be a serious day for the negroes in the county when the ball is opened, and a few like Fine would soon open it. Luckily, we have many colored people who are peaceable, law-abiding citizens, and who disapprove of all conduct that snatches of innocence. And yet, unluckily, if reports be true, we have citizens who amuse themselves with thinking they are white, ready to incite such characters as Fine to riot. It is believed this could be proven, as more than one has heard as reliable a man as lives, say he knew enough to identify any one or more white men. Who they are, I haven't the least idea, and hope I never shall. That being— he can't be a man—who would incite race hatred against his kind, is to be looked upon as a monstrosity, and shunned by society. I'm loath to believe such an one lives in this county. I have not said so much unadvisedly. It was only after hearing six reliable men of different politics tell the same story, that I ventured such an opinion.

Large parties from Louisville, Paducah and other points are camping at the popular resort, Airline, among whom was seen the efficient D. C. Mr. Ben Field, of Hartford.

Miss Mand Liles, of Russellville, is visiting Miss Benah Morrow, who has been with her aunt, Mrs. Beady, for several weeks. Rev. Edie Maddox has returned from a trip to Russellville, and Miss Bonnie Jackson from Texas. Miss Sudie Hunter has been visiting her sister, Mrs. Perry Benton, for several weeks. Mrs. Welch is quite sick.

The Rockport Cornet Band will give a free entertainment at the school house next Friday night. The public are invited.

Mr. Charley James, of Cromwell, was in town last week. Miss Pearl Reid is at White Plains, visiting her cousin, Miss Mattie James. Dan Gibbs is at Severe (Bevier) holding down the telegraph. "Jimmie Cairnes is at home for a few days.

S. S. Hoverton says the oil business is exceedingly dull since—oh, well, Sam, I see where you're right.

Born—To Mrs. Rosa Woodburn on the 3d inst., twins, both boys. Henry, it looks like the county will go Republican yet.

Speaking of twins, I want to say to the very oldest inhabitant, that Mr. Ples Garrett, of Muhlenberg county, brought to post office last week a double watermelon well matured. He says it portends Cleveland's re-election. He may have looked at it and said it is the first double of the melon kind they ever saw.

Wanted.

A man of good character, industrious, and wide-awake, who can furnish a horse and harness, may obtain profitable employment by applying in person to
